**Product:** Humate potassium "PREMIUM HUMIC"

**Method of analysis:** Spectrometric method of analysis/Inductively coupled plasma-atomic emission spectrometry

№	Characteristics	The rate for (TU U)20.1-39941171-001/2019	Installed by analysis
1.	External appearance	Powder or granules from grey to black colour	Match
2.	Mass fraction of moisture,% no more	28	15
3.	pH of 1% aqueous solution, pH	9-11	9,2
4.	The mass fraction of Humic and Fulvic acids in recalculation on dry organic weight,% not less Including : Humic acids Fulvic acids	30	83,4 72,4 11,0
5.	Mass fraction of phosphorus (P2O5) gr/kg		3,0
6.	Mass fraction of nitrogen (N) gr/kg		7,0
7.	Mass fraction of potassium (K2O) gr/kg		134,0
8.	Mass fraction of calcium (CaO) gr/kg		4,0
9.	Mass fraction of sulfur (SO3) gr/kg		6,0
10.	Solubility, min (%)		96,8
